About the job

Why are we proud of what we do at allnex? We create coatings, products which help protect the world **for all nex>t generations** – and that's exactly what you can do joining us!

Imagine how fast your smartphone would become scratched-up, ugly and unusable without a coating. Or an e-bike, the cabin of a train, a beautiful wooden floor, and countless other things in life.

Making objects and their surfaces more attractive and longer-lasting means making them more sustainable, and that's a huge part of what working at allnex is about. No matter which role you step into, you'll become part of a global team of passionate people who care deeply about the chemistry, quality, and global impact of coatings.

You'll also join a highly multicultural and diverse team of more than 4,000 employees in four regions who – as part of one of the world's leading coating resins companies – serve customers in over 100 countries across the globe.

Position Overview

We are looking for a Quality Manager to join our site in **Seremban**, Malaysia. In this role, you will oversee all aspects of product and process quality at the site—including **quality control** and **assurance** activities, regulatory compliance, and continuous improvement initiatives.

If you're exploring new career opportunities, view the job description below and apply now!

Responsibilities

- Product & Process Quality
 - Ensure quality of finished goods through control of raw materials, in-process, and final product testing.
 - Coordinate lab testing, equipment calibration, and standardisation of test methods.
- Quality Systems & Compliance
 - Maintain site certifications (ISO 9001, ISO 14001, OSHA 18001, RC14000) and ensure compliance with legal, regulatory, and corporate standards.
 - Lead internal/external audits and manage corrective actions.
- Continuous Improvement & Problem Solving
 - Drive quality improvement using Lean, Six Sigma, 5S, RCA, and other tools.
 - Lead RCAs for incidents and implement preventive measures.
- Customer & Supplier Interface
 - Handle customer complaints, support supplier quality, and participate in customer/supplier visits with Sales and Purchasing teams.
 - Collaborate with Product Development on new product quality requirements.
- Cross-functional Leadership
 - Work closely with Operations, Supply Chain, R&D, and other functions to align processes and drive quality outcomes.
 - Manage quality IT systems and process landscape in line with ISO standards.
- Lab & Resource Management
 - Oversee lab safety, chemical handling, waste disposal, and employee training.

- Lead and develop the laboratory team, including training and capability building.
- Strategic Projects & Stakeholder Engagement
 - Support CapEx and MOC initiatives, ensure stakeholder alignment on quality goals, and drive cultural change.

Required Skills And Experience

- Minimum 5 years' experience in the chemical industry, preferably in the paint, coatings, and/or resins sector.
- Proven experience managing ISO 9001 Quality Management Systems.
- Strong Quality Assurance and Quality Control exposure
- Internal and external auditing experience (customers/suppliers) ISO 16949 exposure is a plus.
- Effective communicator with strong stakeholder engagement across all levels.
- Leadership experience in team development and supervision is an added advantage.

Qualifications

- B.Sc. in Chemistry or Chemical Engineering
- Quality Manager and Auditor certifications preferred, particularly in ISO 9001.

We offer

We are proud to offer an international working experience with a tight-knit network of employees, making it easy to connect and learn from people all across our different functions. On top of that we are a truly innovative company with a strong team spirit, openness to new ideas, and great opportunities to grow and develop your career.

Equal Employment Opportunity

allnex is proud to be an equal opportunity employer. We celebrate diversity and are committed to an environment where all colleagues contribute for the benefit of our employees, our products, and our communities.

Find out how you can make an impact!

Check out our careers page for available opportunities. We look forward to hearing from you.
